

Open House

Open House on Sept. 2nd was well attended, the temp in the building was much better than it has been in previous years. We had 95 % of Freshmen attend and pick up their folder. That's the one measurement we have to determine attendance.

Start of the Year

We have had a good start to the year, the building is basically back together as far as we can see things. I want to one last time thank the custodial staff and everyone that worked to get the building back in shape for the start of the year.

Homecoming

With the later start to the school year and the early homecoming date, it has been a bit of a whirlwind to get everything scheduled and in place. Coronation will have happened already and homecoming is upon us.

Stop It

Stop it is the reporting system that the district is implementing for anonymous reporting of all serious situations. These can include bullying, self harm or threats of violence. It has been presented to all HS students at our grade level meetings that start the school year.
