Board Report

September 2026

Threat Assessment Training

- Special Education Coordinators attended a Threat Assessment Training to better understand the dynamics of targeted violence and to develop strategies for the early identification, assessment, and intervention of concerning behaviors. We have identified several valuable resources to assist in leading threat assessment meetings and managing interventions moving forward.

New Special Education Teacher Support

- Special education teachers new to the district attended Perandoe's new staff training in August. As a follow-up, Vicky will be meeting with new teachers individually for a half-day or full-day session to review district policies, procedures, and IEP writing compliance.

Behavior Change Team

- This year's Behavior Change Team includes expertise from our Speech-Language, Social Work, and Perandoe BCBA departments. Caseloads have rolled over from last year, and targeted behavioral strategies were shared with teachers prior to the first day of school to ensure smooth classroom transitions.
