Student Group Findings

During the first Professional Learning Community (PLC) meetings the following was identified:

Students need improvements in ELA in the area of writing, including sentence structure, run-on/fragment sentence correction, and reducing common syntactic errors.

Students need improvements in Math, including solving problems with graphing/fractions and rationalizing word problems.

Instructional Plan for MS/HS

- We will address the proficiency gaps by intensifying data-driven Professional Learning Community (PLC) cycles,
- We will leverage regular interim data to adjust small-group instruction.
- We will close the math proficiency gap by analyzing standards and use Pathways2Careers Curriculum with fidelity with the support of the Math instructional coach.
- We will implement Writing Revolution 6-12th grades with the support of the literacy coach to support vertical alignment K-12.
