

LA VERNIA ISD

Department Strategic Plan Progress Update

Every Campus. Every Student. Every Day.

Department: Health Services

Director/Lead: Alysha Evans

STRATEGIC PLAN ALIGNMENT

Strategic Pillar: Smart Systems

Department Goal: 80% of parents/guardians will provide signed consent authorizing health services as measured by consent forms completed and turned in during and after registration.

Annual Target: May 2027

HEALTH SNAP SHOT (DATA):

Health-Related Services Consents				
Campus	Primary	Intermediate	Junior High	High School
# of Consents Received-Yes	607	794	825	1039
# of Consents Received-No	4	3	6	28
# of Consents Not Received	180	15	8	34
Total # of Students	791	812	839	1101

Clinic Visit Average

Campus	Primary	Intermediate	Junior High	High School
2024-2025 School Year	3305	2635	3864	3383
2025-2026 School Year	4326	2987	4212	3322
August & September '25-'26	524	567	767	649
August & September '26-'27	671	586	746	414

Medication Administration

	Primary	Intermediate	Junior High	High School
Oral Tablets/Capsules (scheduled & as needed)	45	55	77	82
Inhalers (scheduled & as needed)	36	39	50	31
Emergency Meds	17	14	23	13

Chronic Health Conditions

Current Result

End-of-Year Target

☒ On Track ☐ Progressing /
Monitor ☐ Needs Attention

PROGRESS UPDATE

What progress has been made toward the goal?

- We are mostly on target with our consent progress.
- QR Codes for Forms created for these events.
- Utilize Thrillshare/Rooms App to Message Parents and attach consent form.
- Coordinate with PEIMs to have New Students complete form when registering.
- Collaborate with Teachers to determine the best form of communication with specific students and guardians. (Google Doc, Email, Rooms, Paper Copy)

- Have form translated to Spanish and coordinate with Mrs. Humphries for assistance with bilingual and Spanish speaking students and parents/guardians.

EVIDENCE OF PROGRESS

What data or evidence demonstrates progress?

- Inputting data from all different platforms to have one master copy of the consents received.

RESPONSE

If there is no progress, how do you plan to respond?

- **N/A**

Excelling? What's next?

- We have used different platforms to reach out to parents and guardians to get this completed. Google, Thrillshare/Rooms, Phone Calls, Paper Forms, PEIMs Collaboration, Bilingual Coordination and Translation.
- If parents have said “No” we are personally making calls to ensure that was the response they intended to make and review exactly what the consents mean and allow us to do in the school setting.

STRATEGIC ACTIONS UPDATE

Strategic Action	Progress / Result (Complete, In- Progress, Not-yet, N/A)
Send reminder messages through Thrill Share	In Progress
Place phone calls for forms not received and that do not provide consent.	In Progress
Attend district events to provide information /guidance on consent services.	In-Progress

HIGHLIGHTS & IMPACT

What is working well? Having the consents in ascender with returning students to complete when registering.

Impact on Students, Staff, or District Operations: ability to assist students with basic medical needs and complete state mandated screenings.

CHALLENGES / BARRIERS

What challenges, if any, may impact achievement of the goal?

- Parents who misinterpret what they are consenting to and selecting “no” because they do not realize we are just providing health related services that are considered basic first aid, unless we have a physicians order provided by the parent and the student’s physician to do so.

NEXT STEPS

What will you focus on moving forward?

- Focus first on the ones who have answer “no” and then continue to collect consents for those who have not turned one in.

END-OF-YEAR OUTLOOK

☒ Expected to Meet/Exceed Goal ☐ Additional Monitoring Needed ☐ Adjustment to Actions Needed

Brief Explanation:

The majority of campuses have received their consents. We are reaching out as the Health Services Department to try and get all “yes” responses. If there is no Yes response, we must have documentation that states the student is exempt from state mandated screenings. We are working on contacting parents who may have misinterpreted what they are consenting to and selecting “no” because they do not realize we are just providing health related services that are considered basic first aid, unless we have a physician's order provided by the parent and the student’s physician to do so. We will send out Spanish translated documents to those who may need them. We will have teachers reach out to parents as well if they have a different type of communication with the parent. We will collaborate and coordinate with all departments to ensure we are getting the consents we need to provide the best care we can for students while they are in our schools.
