Total Amount:			\$20,400.00

Notes

Scope of Work

Parking Lot Installation

Install a new approximately 150' x 150' parking lot with two designated entrances. Install woven fabric over the prepared subgrade. Place approximately 7 inches of CA-6 and compact. Grade and shape the existing soil as necessary to promote proper drainage. Remove existing rock from the temporary roadway and backfill the area with dirt available onsite. All trucking and rock required for the project will be supplied by the School District.

Disclaimer

All trucking of rock to be supplied by the school must be provided in a timely manner, (2 days). If the required materials are not available as scheduled, any additional time spent onsite will be billed at the applicable hourly rate per machine.
