Re: MDM Software — Per-Device Licensing

Dear Browning Public Schools Board:

Swif.ai is pleased to submit this bid to provide mobile device management (MDM) software for Browning Public Schools, replacing your current Mostyle platform.

Our proposal is simple: Swif MDM for Education, licensed at a flat rate of \$5.00 per device. The bid covers 3,912 endpoints, 100 Windows devices, 3,363 Apple iPads, 419 Apple MacBooks, and 30 Linux devices. For a total of \$19,560.00, as detailed on the enclosed invoice. Pricing includes enrollment, patch management, software distribution, configuration monitoring, and help desk workflows, all delivered through a single Swif MDM console.

Hadley McIntosh will serve as the District's single point of contact and may be reached at (206) 659-8271 or hadley@swif.ai. We appreciate the opportunity to bid this work.

Respectfully submitted,

Signature

Re: Bid #01, District MDM Software — Per-Device Licensing at \$5.00 per endpoint

Description	Quantity	Unit Price	Line Total
Swif MDM for Education — Windows Endpoint Licenses	100	\$5.00	\$500.00
Swif MDM for Education — Apple iPad (iPadOS) Endpoint Licenses	3,363	\$5.00	\$16,815.00
Swif MDM for Education — Apple MacBook (macOS) Endpoint Licenses	419	\$5.00	\$2,095.00
Swif MDM for Education — Linux Endpoint Licenses	30	\$5.00	\$150.00
TOTAL — 3,912 Endpoints			\$19,560.00

All endpoint licenses are priced at a flat rate of \$5.00 per device. Pricing is inclusive of enrollment, patch management, software distribution, configuration monitoring, and help desk workflows delivered through the Swif MDM console.

Included at no additional cost:
100 Free Endpoints to be used at any time throughout the year. The reason for this is to reduce the annoyance and burden on the district staff on procurement of additional licenses. We know things fluctuate throughout the year.
