

TRANSPORTATION BOARD REPORT FOR

SEPTEMBER 2026

SUBMITTED BY WAYNE BULLCALF

This is my September board report

For the mechanic shop, they have completed 51 workorders, such as bus breaks, changing and balancing bus tires, bringing buses the treasure state to get warranty work done. We have the vehicle that the colony uses at Don-K's in Whitefish getting A/C system repaired. They have done a lot of oil service on district vehicles. We have 26 buses, 2 charters and 38 vehicles that they deal with. The shop Forman informed me that 9 route buses are in danger of losing bus deprecation this coming year so I will be requesting up to 9 new buses.

As for the office, getting all route milage for our bus reimbursement. We will start our bus evacuations that's required 2 times a year and keeping up with the many bills.

So, for the trip personnel they had 43 trips which were, sports, field trips and college visits. In the past we were only short of drivers on Thursday and Fridays but now it's almost all week. We are asking athletic directors to double check your sport trips and leave time.

So, for the disciplinary department we had 26 write ups with 1 removal. These were vaping, not staying in their seats and pestering other students. We had some parents call the garage with complaints after looking at the recordings most weren't what was said sometimes, I wish we can show but we do send to the principle to view.

So, this is my board report thanks for reading God bless all.
