OSBA Plus Package

The Oregon School Boards Association Plus Package is available to the district at an annual cost of $1,795. The cost would be prorated for the remainder of the current billing cycle, as OSBA's annual billing cycle occurs each July.

The district currently receives quarterly updates from OSBA that include recommended policy revisions and updates. The Plus Package would provide an enhanced level of support by allowing OSBA to conduct a review of the district's specific policies and provide recommendations tailored to the district's individual needs and circumstances.

Rather than receiving general policy recommendations, the Plus Package would provide the district with individualized policy review and guidance based on its existing policies and specific operational needs.

The district is currently undergoing a policy review and is receiving individualized recommendations from OSBA as part of that process. Once the current policy review is complete, the district would purchase the additional services provided through the Plus Package.
