RE: Stormwater Management Contracts, Amendment V

Dear Mr. Rizk:

Through the cooperation of the municipalities and the county, a joint effort was put forth to implement the requirements of the NPDES Phase II permits on behalf of all parties through a contract. The Surface Water Advisory Committee has met and voted on these changes to the 5th amendment of the contract.

The next step is for each party of the contract to submit to their municipal Board for approval. I am enclosing an example resolution and a copy of the amended contract that allows communities to combine costs and efforts to everyone's benefit.

This 5th amendment to the contract will be the next step in allowing the municipalities to stay in compliance with Phase II requirements in a countywide cooperative system. As soon as all members of the contract, within Genesee County, participating in the countywide Phase II system have passed their respective resolutions, the contract will be circulated for the appropriate signatures.

Sincerely,

A handwritten signature in blue ink that reads "Susanne Hogan".

Susanne Hogan
Genesee County
Deputy Drain Commissioner
