

Greeting Joe and Happy Fall!

My wife and I have lived in

Vietnam Top. Since 1970 (at Jearings

and Wilson Rd) we have greatly

enjoyed Chio and it's wonderful

hard working people. Both our

sons graduated from Chio H.S.

and received a great education

from great teachers. As expected

we have many longtime Chio

friends and neighbors.

I am writing about the flock

camera discussion.

Flock cameras are needed and

we support their use

I am sure my comments mirror

other flock camera supporters!

(over)

- License Plates are Public!
Anyone can see them on the road.
- Driving on Public Roads is a Regulated Activity. We as drivers accept certain visibility and monitoring when driving in public.
- Flock Solve Crime
- Flocks don't record faces
- Flocks are no different than a police officer watching traffic!
Sure there can be system abuses but legal protocols can control this.
- Data Retention is usually only 30 days
- Court Ruling Hold Flocks don't violate 4th Amendment Rights.
- U.S. v. Knotts (1983) - Tracking a vehicle on public roads is not a search.
Finally! Thank you and the Viewpoint
Organization for the great job you do
sincerely Ken Gembel
