Performance Growth Targets

NO ACTION REQUIRED

Background or Summary

The Oregon Department of Education has approved North Bend School District's Performance Growth Targets for 2026-27 through 2029-30 under the Education Accountability Act.

The attached two-page brief explains Oregon's new accountability framework, presents the district's 2024-25 starting-point data and annual baseline and gap-closing targets, and aligns the measures to the district's strategic plan.

North Bend selected Academic Growth using Renaissance STAR assessments as its local metric because STAR is one of the three state-approved interim assessment systems and is already used across the district. The 2026-27 school year will establish the STAR growth baseline, with future targets set before 2027-28.
