BACKGROUND INFORMATION

In April of 2025, the AISD Board adopted the 5-year Collaborative Visioning Plan for Argyle ISD. Each year, the District will report progress made and updates to the plan.

The Collaborative Visioning Process equips the district to:

- ✓ Clarify its mission, vision, core values, and motto
- ✓ Speak with one unified voice
- ✓ Move forward together in a shared direction
- ✓ Support students holistically across all areas of their education

The result of this process is a clear, community-developed guiding strategy — one that outlines what Argyle ISD intends to accomplish and the key initiatives that will help us achieve those goals.

Together, we are building a future rooted in tradition, guided by values, and focused on excellence for every student.
