Greetings, Faribault Educators,

Saint Vincent de Paul of Faribault recognizes that educators are among the hardest-working people in our community, and we are grateful for the dedication, compassion, and care you bring to students and families every day.

Walmart has generously provided our organization with more school supplies than we can use for the clients we serve, and we would be grateful to share this abundance with you and your students. Please feel free to distribute these supplies to any classrooms or students who may benefit from them.

Saint Vincent de Paul of Faribault deeply appreciates all you do for the children and families in our community. We hope these supplies help ease some of the burden on teachers and schools, and we are grateful for the opportunity to support your important work.

With sincere appreciation,

Saint Vincent de Paul of Faribault
