- Credit enrollment of **9,262 students**
- Non-credit enrollment of **2,925 students**
- 32% **Native American**
- 23% **Hispanic**
- 66% **female**/34% **male**
- 96% of students **would recommend SJC** to their friends and family

Project Summary

- Six new outdoor **lighted pickleball courts**
- Renovate **Nursing Program facility** to support a 50% increase in students
- Update Henderson Fine Arts Center Theatre **lighting, sound, and cinematic video wall**
- Renovate 4,000 square feet for a **new HVAC-R technician training program**
- Matching funds (25% of total cost) for **heating water loop and water utility upgrade**

Pickleball Courts

- **Six lighted outdoor courts** for extended play
- **Helps meet community's need** for additional courts
- **Free and open to the community**
- Creates **outdoor recreation hub** with nearby soccer fields and sand volleyball court

Nursing Program Facility

- Nursing cohort **has increased by 50%** to address regional need
- Provides **office space** for added faculty
- Enhanced **simulation laboratories** provide hands-on learning experiences
- Flexible **learning spaces will mirror clinical environments**, allowing seamless transition to the workforce

Henderson Fine Arts Center Theatre

Expanded theatre capabilities will elevate college events and expand opportunities for community-wide programming, corporate seminars, cinematic screenings and large-scale community events

- **Energy-efficient LED** theatrical lighting
- **Enhanced audio** capabilities
- **State-of-the-art video wall** for digital scenery, presentations and multimedia experiences

HVAC-R Program Space

New Heating, Ventilation, Air Conditioning and Refrigeration program will **prepare students for careers** in one of the region's fastest-growing skilled trades.

- Approximately **4,000 square feet renovated**
- **Dedicated classroom and flexible-use laboratory facilities** for real-world simulation
- **Industry-standard equipment** reflecting today's residential and commercial systems

Replace Aging Water & Sewer Infrastructure

\$5.6 million investment **addresses water and sewer lines** that have reached the end of their useful life. Repairs will improve infrastructure reliability and support safe, efficient operations.

- \$1.4 million will come **from local bond**
- \$4.2 million will come **from statewide Higher Education GO Bond 3**

We Need Your Vote!

- Bond funding **WILL NOT** raise local property tax rates
- Projects will **create new jobs and support local businesses**
- All projects **maximize the existing college footprint**
- Nursing and HVAC-R investments will help **address regional workforce shortages**
- **Pickleball courts** provide an additional recreational resource for free community use
