

Henderson ISD Board Background

Subject: Consider Changes to GKD Local

Presented for: **Action** **X**

Report Only

Background Information

According to GKD(LOCAL), HISD shall permit the non-school use of designated District facilities for educational, recreational, civic, or social activities, provided that such activities do not conflict with school use. An audit of the current facility use agreements, along with the transition to a new facility rental software (Incident IQ), has resulted in proposed changes designed to streamline and modernize the facility use process while ensuring equitable access to HISD facilities.

The changes establish required personnel for each event, clarify additional costs associated with usage agreements, define fee classifications for each organization, and establish guidelines for neutral-site athletic events.

Recommendation:

Approve changes to GKD(LOCAL) as presented.
