Good morning,

Thank you for meeting with me this morning. Protect Your Assets, llc has been serving the MS Coast and has over 25 years of asphalt parking lot experience.

PYA is submitting the following quote at a lump sum price.

Install 60 foot of 18" culvert on the road side of newly built parking lot.

Treat grass for vegetation, no guarantee that grass will not grow back through the newly aggregate material. Strip grass area approximately 480x60, and drive area as discussed approximately 120x22. Haul off the stripped grass and deliver, spread, and compact newly delivered parking lot material.

Limestone or Asphalt Millings.

Lump sum price: \$49,998. 90

total cost. No tax for school district.

Thank you for this opportunity and we look forward to working with your team.

Shane Langfitt
