

October Maintenance Report

Even though I enjoyed my time off with family, I am also very glad to be back at work and working alongside our team. I feel very fortunate to have such an awesome team who did a great job keeping up with our schools and facilities while I was away.

Work Orders & Building Support

It was a busy month for the department. Our team completed roughly 126 work orders, not including the in person requests and day to day needs that come up throughout the month. This was accomplished while also supporting soccer, volleyball, and football activities.

I appreciate the effort our custodial, grounds and maintenance staff continue to put in.

Field Preparation

Our grounds crew once again did an outstanding job preparing the Homecoming field. Their attention to detail and hard work helped ensure the field and surrounding areas were ready for this important event. I appreciate their continued commitment to maintaining our athletic facilities at a high standard.

New Custodial Team Member

I would also like to introduce our newest team member, Laura Lozano. Laura has joined our custodial team and will be responsible for covering the District Office and High School CTE Building. We are excited to have her on board and look forward to the contribution she will make to our team.

Preventative Maintenance

Maintenance has also begun working on several larger annual preventative maintenance projects across the district. These projects include:

- Roof and downspout cleaning
- Shop equipment maintenance
- Irrigation system blowouts at all locations

Completing these projects as part of our annual preventative maintenance schedule helps us stay ahead of potential issues, protect our facilities and equipment, and extend the life of our district assets.

Overall, I am very pleased with the work our team continues to accomplish. There is always plenty to do, but I appreciate the dedication and teamwork everyone continues to show in keeping our schools and facilities operating at a high level.
