

Action Item

Date: October 13, 2026

Division: Schools, Learning & Teaching, Acct&Eval

Subject: Griffin Middle Local Improvement Plan Action

Background Information:

- Local Improvement Plans (LIPs) are locally developed and maintained improvement plans that are meant to address areas of low performance on a campus. Campuses with an Additional Targeted Support (ATS) identification, a Targeted Support (TSI) identification or a State Accountability rating of a D will be required to create a Local Improvement Plan.
- Per Texas Education Code (TEC) 11.253, all campuses must develop a campus improvement plan (CIP). The CIP may substitute for the LIP if the requirements outlined in this guidance are met in the CIP.
- Griffin Middle School is rated as a C by the TEA state accountability system and targeted support for emergent bilingual and must create a Local Improvement Plan.
- These plans are not required to be submitted to the agency unless requested.
- Staff presented initial information regarding the Local Improvement Plans during the October 5th Board Work Session.
- Additional information regarding school improvement is located at:
<https://tea.texas.gov/assessment-and-accountability/monitoring-and-interventions/school-improvement/school-improvement>

Administrative Consideration:

- LIPs must be developed, board-approved, and implementation underway by November 20, 2026.

Recommendations:

- The Board approves the Local Improvement Plans as presented by district and campus staff.
