CCSD Maintenance Report SEPT 2026

Updates to projects that were ongoing during our last Board Meeting.

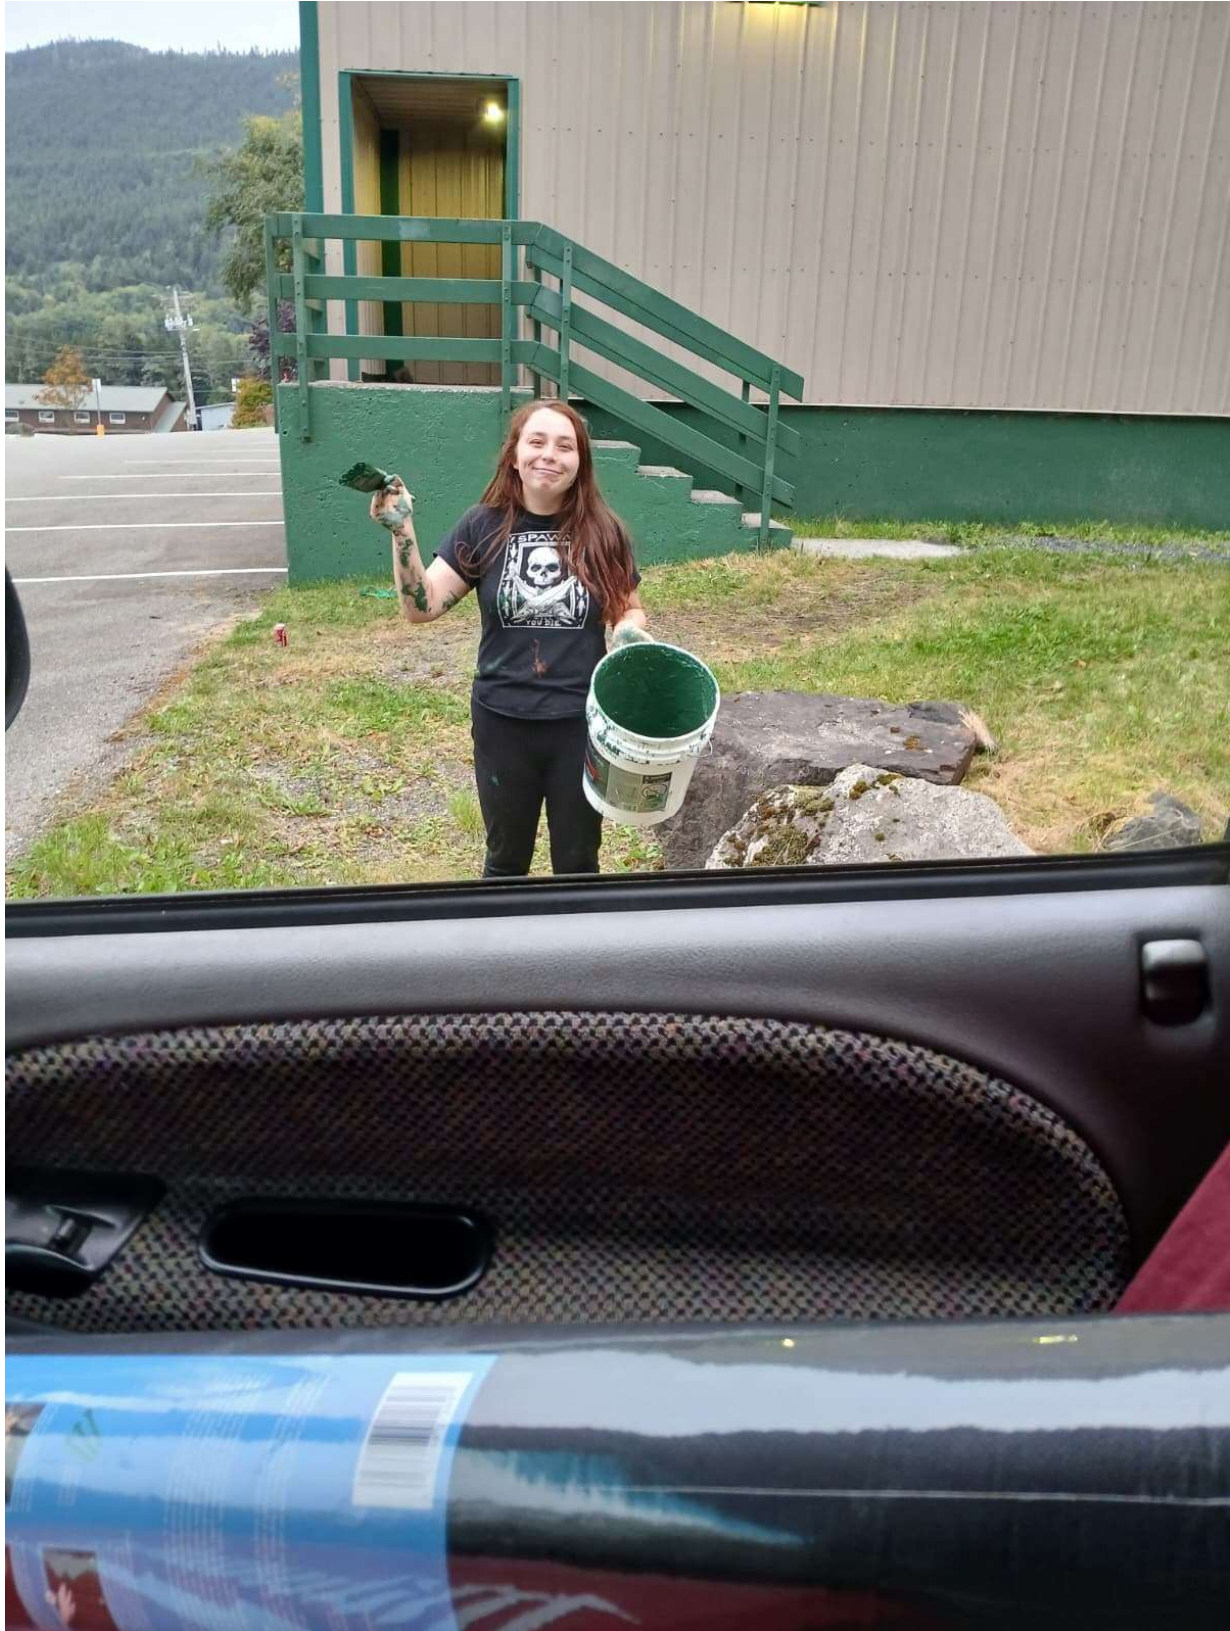

The CMS Lockers are finally in place.

Sometimes, it's the little things. (Thank you, Jackie)

KimeJoe's dedication to improving her building (This picture was taken 3 weeks after school started). We continue to enjoy her enthusiasm and efforts.

“A little paint for you, and a little paint for me” – Kimejoe (probably)

On this episode of Leak Hunters, we find an old new leak in the Music room. (Don't ask). We hope to have this closed up before the next board meeting. In the meantime, bucket mitigation has been enacted.

On to new business.

We are 3 steps closer to getting internet into the new Wood Shop and allowing Mr. Lindquist to have communications with the outside world.

Pro-tip – the plastic trash bag/string/shopvac method for running new cable, works as advertised.

Panther Lake at the Highschool has been removed.

On an unrelated note, 9 members of the local deer population have been treated for headaches, fatigue, dizziness, and rapid heartbeat.

There are still 2 smaller 'holes' that we will fill in at a later date.

We started on the new drainage lines for the gutters at the middle school. We dug up the old/crushed 4" french drain (single walled perf pipe) and are replacing the existing system with double walled 6" perf. Along side the french drain, we are running 6" solid ABS, to catch our downspouts and are running that out to the swale on the far side of the bus barn.

That look you make when your boss is sitting in a skid steer, taking a picture, and you are hand shoveling.
