4:00 PM

BOE Room

Welcome and committee purpose

Committee members introduced themselves and reviewed the purpose of the Community and Communications Board Advisory Committee and its connection to the Blue Valley Strategic Plan.

Blue Valley Strategic Plan

Committee members reviewed the district's mission, strategic priorities, foundational commitments and strategies. Members participated in small-group discussion and shared feedback about implementation, communication and community understanding of the plan. Discussion included the importance of quality staff, student support, clear communication and understanding how priorities translate into specific actions and measures of success.

Budget update

Chief Financial Officer Jeremy McFadden provided an overview of the district's budget, including declining enrollment, restricted funding sources, special education funding, cash reserves and bond funding. Committee members discussed the financial impact of declining enrollment and special education underfunding, as well as the importance of helping the community understand school finance.

Electric-assisted and motorized bikes, scooters and student safety

Director of Safety and Security Dan Carney provided information about electric-assisted and motorized bikes and scooters, including safety concerns, applicable regulations and the district's student permit process. Committee members discussed education,

enforcement and opportunities to reinforce safe use with students and families.

Next meeting

The next meeting will be held Oct. 26, 2026, at 4 p.m. Topics will include academics, AI work, ParentSquare and the Blue Valley Educational Foundation.

NEXT MEETING

Next meeting will be held on October 26, 2026

BOE Summary

The Community and Communications Board Advisory Committee held its first meeting of the year on Sept. 28. Members reviewed the Blue Valley Strategic Plan and provided feedback on priorities, implementation and community communication. The committee also received a budget update focused on declining enrollment, special education funding and restricted funds. The meeting concluded with a discussion about electric bikes and scooters, including student safety, regulations and the district's permit process. The next meeting will be held on October 26, 2026.
