

Alsea Athletics Department

October 2026

Academic Progress & Grade Checks

- **September 14 Grade Check:** 7 student-athletes were failing at least one class.
- **October 5 Grade Check:** This number dropped significantly to only 2 student-athletes failing at least one class.

Our coaches and staff will continue working closely with these remaining students to provide the necessary support and resources to get them back on track academically.

Fall Sports Varsity Update

The **varsity volleyball team** is having an exceptional season, currently holding a dominant 10-1 record in league play as of October 6. Their sole league loss came against Mohawk, who is currently ranked #8 in the state.

Facilities & Technology Upgrades

We are making major strides toward upgrading our athletic infrastructure to better serve our community and fans.

- **Grandstand Connectivity:** Keenan Elbers, Chris Chilcote, and Nathan Roberts have been actively working on installing a hardline connection to the grandstands.
- **Field Wi-Fi:** This project will bring stable Wi-Fi access directly to the football field.
- **Game Broadcasting:** Once completed, this network infrastructure will allow us to record and broadcast future football games live through the NFHS Network, making our athletic events accessible to family and community members who cannot attend in person.
