

ITEM FOR INFORMATION**2025-26 OREGON STATEWIDE ASSESSMENT SYSTEM RESULTS****SUMMARY**

The Oregon Department of Education has released the Oregon Statewide Assessment System (OSAS) results from summative assessments completed in spring 2026. The annual state tests measure student proficiency in language arts, math and science for grades 3–8 and grade 11.

For the 2025-26 school year, a higher percentage of Beaverton School District students met or exceeded proficiency targets than the statewide student average in all subjects, all grades, and most student groups. However, the performance gap by which BSD exceeded the state average narrowed across all subjects, as there was greater growth statewide than locally.

Testing data for 2025-26 demonstrates small year-to-year gains in language arts and math proficiency compared to 2024-25 and a dip in science.

RECOMMENDATION

Staff will present information on the 2025-26 school year state assessment results for the Beaverton School District. No action is needed.
