**4. Approval of Upgrade to Building Ventilators**

As part of the 2020 Bond projects, new HVAC systems were installed in all district buildings. While these systems are working as intended, they bring in more outdoor air, and due to Michigan's high humidity levels, these systems require additional controls to maintain optimal indoor air quality. New sensors were installed at Bursley last year to pilot this upgrade. It was very successful, and it is recommended to upgrade all elementary buildings and the Junior High. The High School is not included due to the future work planned for this building, and it has not been experiencing the same high humidity as the other buildings. These controls will also reduce the energy cost. The total cost will not exceed \$125,000 and will be funded from the 2020 Capital Projects Fund.

**5. Approval of Golf Simulators**

The JPS golf program has requested 3 new simulators to help with cold weather practice. Three quotes were received for the equipment. The bays will be located above the Kamstra gym. It is recommended to purchase 3 simulators including turf from Maple Hill in the amount of not to exceed \$85,000. The athletic and high school budgets, athletic booster contribution, and the general capital projects will fund this project.

**Discussion Items:**

**1. Audit Review**

Sydney Herioux from Maner Costerison will give a brief presentation of the June 30, 2026 audit.
