

Consider Acceptance of Equipment and Supplies in Support of the Allied Health and Nursing Programs.

Staff requests acceptance of a donation of various medical non-capital equipment and supplies from The University of Texas Medical Branch in Galveston. These items are new but not suitable for use on patients. Accepting this donation will offset some of the cost of disposable supplies the Allied Health and Nursing programs consume each year during skills practice and testing. Accepting this donation will also introduce our students to specialty supplies they would not otherwise see because of the items' cost.

Donor	Items Received	Value
The University of Texas Medical Branch 301 University Boulevard Galveston, TX 77555	Various medical non-capital equipment and supplies	\$300,000
