Maintenance and Transportation Report

October 19, 2026 Board Meeting

Transportation

- **Bus #48:** Replaced all tires

Maintenance

Pacific High School

The Maintenance Department has been keeping up with repairs and general upkeep at Pacific High School and the District Office.

- Replaced the broken window at the track concession stand. This repair took care of a safety and security issue and put the concession area back in good shape.
- Replaced windows and siding on the front of the District Office. We also caulked and painted the south wing as part of the same project. The work will help protect the building from the weather and improve the overall condition of the exterior.
- Sanded and repainted the doors on the west end of the south wing. The doors were showing wear and needed to be cleaned up and repainted.
- Replaced damaged boards on the outside bleachers. We also sanded the benches and applied a clear coat to help protect the wood and extend the life of the benches. The lumber for this project was donated by Oregon Overseas Timber, which helped keep the cost of the project down.
- Groundskeeping has continued mowing and maintaining the soccer field for home games. Keeping the field mowed and maintained is an ongoing job during the soccer season and helps keep the field in good playing condition for our students and visiting teams.

Driftwood Elementary

Several repairs were completed at Driftwood Elementary to keep the building and equipment in good working order.

- Replaced the lower seal on the walk-in freezer. We also replaced the door closer and made adjustments to the door so it closes properly and maintains a good seal.
- Repaired the torn screen on the south window in the staff room.
- Replaced the broken glass in the door to the Life Skills classroom. This was completed to get the door back into safe and usable condition.
- Repaired a table in the Life Skills classroom so it could continue to be used by staff and students.
