

2026-27 School Year Financial Report Analysis

For the Month Ended August 31, 2026

Excellence. For each and every student.

Statement of Revenues Analysis

This analysis reflects revenue received by the month end noted above. These numbers are only representative of the first two fiscal months of the FY 2026-27. Overall revenues for all funds are relatively similar to prior years. This is primarily due to the timing of year, with actual revenues only making up one month of fiscal activity, which takes place over the summer. We would expect actual revenues received to be very minimal.

Statement of Expenditures Analysis

This analysis reflects actual expenditures and does not include outstanding encumbrances along with only representing the first two months of the FY 2026-27. Overall expenditures are relatively similar to prior years including salaries and benefits. As is usually always the case, variations compared to prior years are primarily driven by the timing of projects, timing of purchases of supplies, materials, and capital expenditures along with the timing of payments for purchased services.

2026-27 School Year Statement of Revenues
