

OCTOBER 2026

Proposed Greenway Trail Extension

(Aberdeen & Eagle Mountain BLVD)

A presentation for the Batesville School Board
by Lowen Lermite, Batesville Parks Director

Safe Access & Community Benefits for Students and Families

The completed trail will offer substantial, lasting benefits to our community, specifically improving safe access for students and families to schools and local parks.

Promotes Health and Wellness

Provides safe, accessible spaces for walking, jogging, and biking.

Enhances Quality of Life

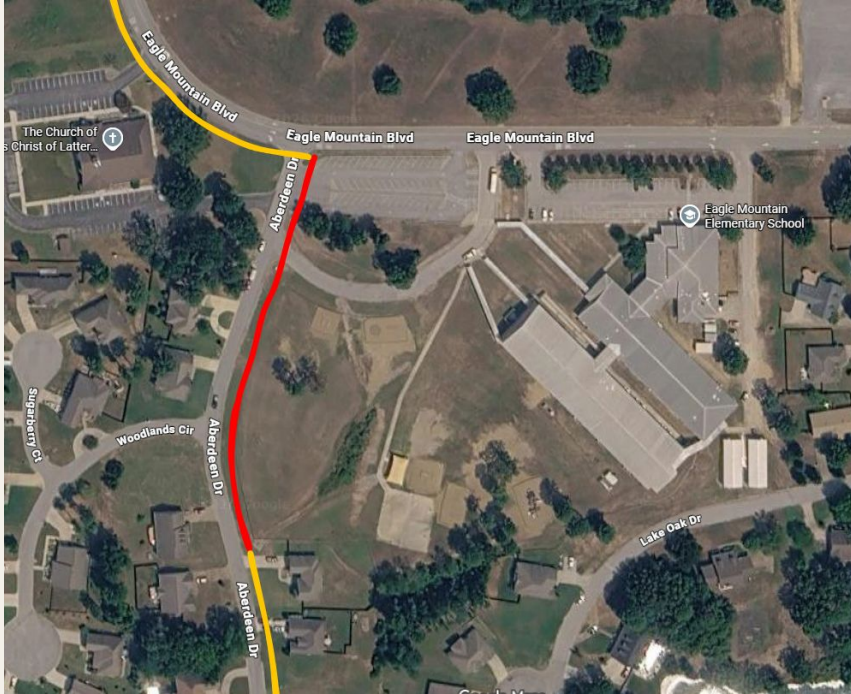

Offers natural corridors to relax and connect with nature.

Improves Connectivity

Provides a non-motorized transportation option, making travel to parks and schools safer and easier.

Completing the Loop: The Final Link in the 4.2-Mile Greenway Network

This proposed extension represents the final remaining section required to complete a seamless 4.2-mile loop network.

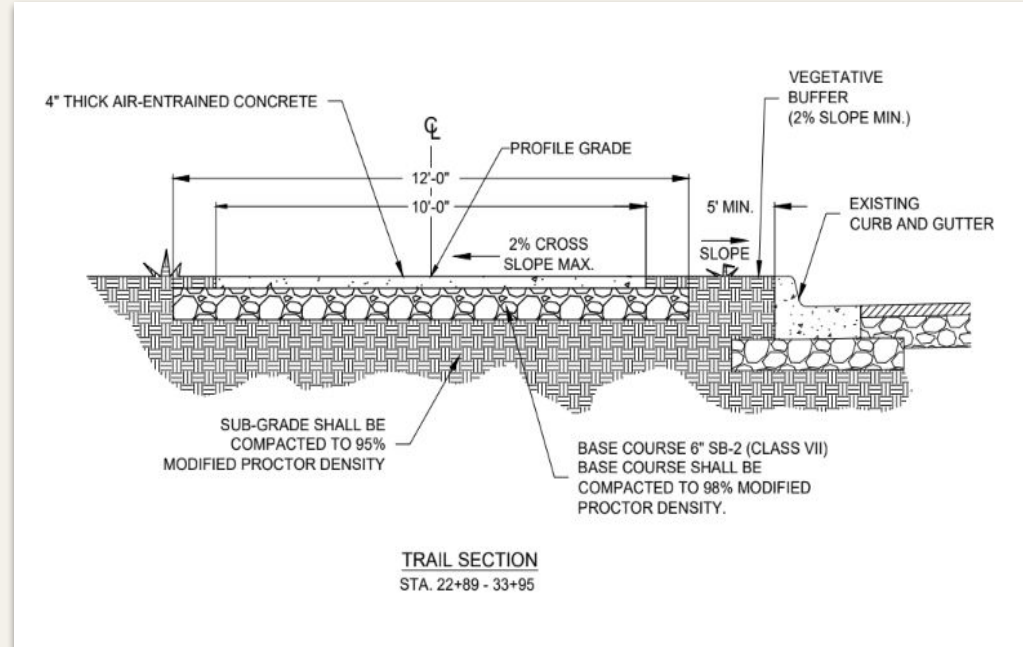

KEY CONNECTIONS

- Eagle Mountain neighborhood
- Riverside Park
- Batesville Community Center
- Businesses along Harrison Street

Engineering Overview & Site Layout Specifications

The project incorporates detailed engineering specifications to ensure a high-quality, durable trail.

- **Surface:** 2" ACHM Surface Course over a 6" SB-2 (Class VII) Base Course.
- **Width:** Standard trail width is 8'-0" to 10'-0", with a maximum 2% cross slope.
- **Sub-grade:** Compacted to 95% Standard Proctor density.
- **Features:** Includes vegetative buffers, ADA-compliant ramps, and necessary retaining walls.

Summary & Collaboration with the Batesville School Board

Completing the Aberdeen & Eagle Mountain BLVD Greenway section is a vital step for Batesville's future.

NEXT STEPS & KEY ACTIONS

1

Land & Access Agreements

Secure construction easements for the trail's construction and maintenance by **Nov 31, 2026**.

2

Institutional Partnership

Continue partnership with the Batesville School Board to ensure safe access routes for students.

3

Execution & Engagement

Finalize construction timelines and community outreach.
