

McKinney Independent School District
#1 Duvall Street, McKinney, Texas 75069

To: Board of Trustees
From: Shawn Pratt, Superintendent
Subject: District and Campus Improvement Plans
Date: October 19, 2026

As a part of our commitment to continuous improvement under our McKinney Accountability System, the district and campus improvement plans have been developed and aligned with the six pillars of the strategic plan. In accordance with MISD board Policies BQB (campus level) and BQA (district level), these plans were created with input from campus and district leadership as well as the appropriate site-based decision-making team.

These plans will be posted to the district website and will continue to be a work in progress and undergo revisions in response to our monitoring efforts. We have initially set the months of December and March as periods to provide formative updates and make any necessary adjustments to strategies and practices. The summative review will occur in June. Our public meeting and presentation will take place on October 19, 2026. We will discuss the plans for compensatory education, title campus support, results driven accountability, talent plans, and campuses requiring intervention under TEC Chapter 39.

Impact Statement: Following a comprehensive needs assessment, the district and campus improvement plan goals have been aligned to the MISD strategic plan. An overview of the goals and key performance indicators for each campus is attached.

It is Recommended: The Board approve the locally developed goals.

Resource Person(s): Jennifer Akins, Molly Hovan, Jeff Banner, and Melanie Raleeh

Respectfully Submitted,
Shawn Pratt
Superintendent
