Total $100,798.18

**Menus:** October attached

**Birthdays:**

October: Donna Swinson 10/5
November: Christopher Luthe 11/11

**General Comments**

Health Inspections: all 3 buildings received health inspections on 10/6/26 and had zero Risk Factor/Intervention Violations. We were marked off for "Good Retail Practices" for our pass through units and areas higher up that had dust accumulation on top of them. The health inspector also used the HACCP topic of maintaining the cleanliness of the inside components of the ice machines as a talking topic. We are starting to get some buildup in the ice machines at each school but not enough to mark us off for it. Overall great score from the inspection. Will follow up with Rylan & maintenance to get on a schedule with cleaning the ice machines and then set a solid plan for cleaning the equipment that is harder to reach.
