

**RESOLUTION 26-060 – Approval of Board Policy to be deleted
EBBCC-Use of Automated External Defibrillator(AED)**

Background: Use of Automated External Defibrillator (AED) outlines MESD's AED program, including requirements for medical oversight, emergency procedures, staff training, and the use of AED devices in response to sudden cardiac arrest. This policy is being recommended for deletion because the requirements and procedures related to emergency health care and AED use are addressed through applicable laws, regulations, administrative procedures, and other MESD policies, including Policy EBBC – Emergency Health Care to Students. Deleting this policy will eliminate unnecessary or duplicative policy language while maintaining MESD's existing responsibilities related to AED availability, training, and emergency response.

WHEREAS, the Multnomah Education Service District Board of Directors Policy Committee has reviewed Board Policy EBBCC-Use of Automated External Defibrillator; and

NOW THEREFORE BE IT RESOLVED, that Board Policy EBBCC-Use of Automated External Defibrillator is approved for deletion as written or as further modified; and

BE IT FURTHER RESOLVED, that if no further discussion is required, Board Policy EBBCC-Use of Automated External Defibrillator is approved for deletion as proposed and does not require a second reading.

Multnomah Education Service District

Code: ~~EBBCC~~Adopted: ~~4/17/07~~Amended: ~~11/16/10~~

Reviewed:

~~Use of Automated External Defibrillator (AED)~~

~~MESD has established an AED program and stationed AED devices on premises for emergencies. The purpose of this program is to provide trained MESD employees with prompt access to AED devices in the event of a sudden cardiac arrest emergency.~~

~~As part of this program, MESD is required to have a Medical Director (MD) who has the ongoing responsibility for:~~

- ~~7. Providing a written prescription for the AED device(s), to be kept on file in the office of School Health Services;~~
- ~~8. All medical control aspects;~~
- ~~9. Reviewing and approving guidelines for emergency procedures related to use of AEDs and CPR/AED training programs; and~~
- ~~10. Overseeing the quality review and improvement plans.~~

~~The superintendent or designee will develop and maintain a plan for training and use of AEDs.~~
