# A note from your Principal:

As we begin the second nine weeks of school, this is a wonderful opportunity for our students to reflect on their progress, set new goals, and start fresh! Whether the first nine weeks brought great successes or a few challenges, each new grading period is a chance to grow, learn, and improve.

Parents, your partnership makes a tremendous difference in your child's success. Please continue to encourage daily attendance, check grades regularly, communicate with teachers, and make sure assignments are completed and turned in on time. These small, consistent steps help students build responsibility and develop habits that will serve them well beyond middle school.

Most importantly, remind your child that mistakes are opportunities to learn, challenges help us grow, and effort matters! At JMS, we believe every student has the potential to succeed, and we are committed to working alongside our families to help each student reach their full potential.
