School Board Principal's Update
10-19-2026

Mid Term

We are already pas tthe midterm. Parent Teacher Conferences were held on October 8th and were well attended.

Prime Time

Prime Time has been going well. Prime Time is designed to be a 25 minute period that satisfies a State requirement for reading, vocabulary and comprehension interventions under the READ act. Each teacher is given a group of kids, with Mrs. Dahl and Mrs. Lieberg providing interventions for those students that did not meet criteria during CAPTI testing.

Math Curriculum

The new math curriculum has been implemented and is going well. As with any new curriculum, teachers are spending a lot of time preparing their lessons and learning the curriculum for themselves.

Baseball Field

Dustin broadcasted seed and fertilizer in late September. Hopefully with the recent rains, the seed will sprout and we'll have a nice playing surface for our 12 home games this coming Spring.

Homecoming

Congratulations to our Homecoming King Will Foss and Queen Jocelyn Waage. Coronation went great and the dance was well attended. The students had a lot of fun with their dress up days throughout the week.

Football

The football team is having a really good season, sitting at 5-1 and tied for 2nd place in Section 8. Playoffs begin October 27th, which we will likely host.

Volleyball

The Volleyball team currently sits in 17th place in Section 8 and will begin their playoffs on October 26th.
