Curriculum Director Report
October 19th, 2026

State Report Card

All data is under embargo until 9:00am on October 30th. We are very pleased with the report card.

Our Summative Designation is now Profile of Performance. How the designation is calculated has changed. Key changes

- We have clear targets for each category. (see Chart)
- No longer compared to other schools or districts.
- We have Core Indicators.
    - Take the highest of these and that is your initial score.
    - If Graduation is Exemplary it has to be paired with Approaching Exemplary in Proficiency or Growth
    - If any or Comprehensive it drops it one level.
    - Automatic Comprehensive is only for the All Student Group
- Step 2 is Apply the Elevating Indicators
    - You can raise your Core Indicator Score with these.
    - We don't have enough EL students to count
- Step 3 is the sub groups
    - You repeat the process for all sub groups
    - If the sub group is comprehensive then the overall score can be no higher than commendable.
    - If a subgroup is in the comprehensive level the school doesn't get that designation. Schools only get the all student group. Schools with a comprehensive subgroup will still be in School Improvement Status.
