Three Rivers School District

Code: KG
Adopted: 6/19/06
Orig. Code: KG

Community use of ~~Buildings~~ District Facilities

It is the district's policy that school facilities shall be made available, under capable and responsible adult supervision, for community activities of an educational, recreational or service ~~civic~~ nature.

~~The district reserves the right to grant permission for building use and to deny any and all building use permits at its sole discretion. The use of school facilities for partisan, political or sectarian purposes may be granted with specific approval by the superintendent or the superintendent's designee. However, it should be understood that approval of building use for partisan, political or sectarian purposes does not imply the endorsement or sponsorship by the district. The administration is authorized to cancel building use permits when it is apparent that such action is necessary for the best interest of the district~~.

The Board expects the users to treat the facilities with respect. A Building Use Request form must be submitted by the person or group to the superintendent or designee. The users must agree to all guidelines on the Building Use Request form as well as all applicable policies.

Use of facilities by district employees will be in accordance with Oregon Ethics Law.

The administrative regulations of the district will include a detailed fee schedule, and procedures and rules pertaining to public use of school facilities. Groups and organizations will be allowed free usage, reduced rate usage, or full rate usage, depending upon the membership of the organization, and the kind of function for which the facility will be used.

Copies of the administrative regulations, fee schedules, and application forms are available at all schools and at the district office.

Payments will be made to the Three Rivers School District and paid through the office of the principal.

END OF POLICY
