

BOARD REPORT

TECHNOLOGY

October, 2026

Things are going good for the start of the year. I am currently working on the Okaw budget. We are replacing computers and adding technology in Mr. Griffin's room and in other CTE Classrooms. I am moving the older computers into the lab next door to his classroom and replacing them with newer computers.

One of our NVR's was having issues, so I had to install a new hard drive.

I am continuing to replace older computers as needed throughout the district with newer up to date computers that we purchased.

I am continuing to work on the camera network. We have added a few more cameras.

I am going to start more phishing exercises.

I have added a new static IP address for the E-Sports lab.

We are cleaning up E-Rate computers to get ready for competition.

I am continuing to work on creating V-Lans for our wireless network.

I am finishing up replacing classroom switches with faster devices.

I have been going through all classrooms to make sure everything is working properly and updating where needed.

Over all things are going well.

I welcome any questions or comments from you. I can be reached at school at x2142, on the cell at 618-301-0487, or by email at laldridge@dupo196.org
