Curriculum and Instruction

- Purchased Word Origins-Level 1 as an intervention for our upper grade students, this is created by the same parent group as “UFLI” which our lower grade has had much success with.
- Professional Development on September 28th:
 - iReady representative presented to K-5 teachers and Special Education teachers, focusing on incorporating resources into planning at universal and tiered teaching. In the afternoon ELC met with the iReady rep to get trained in the iReady pilot for this year.
 - Jacob worked with Music, Art and Physical Education teachers to update their report card language. Now they are all lined up to their state/national standards and the SEL standards fit to their curriculum.
- Jacob went to CESA on October 6th: It's Possible with Angela Hanlin. Focusing on data driven decision making and intervention systems.
- Building wide goals for ELA and Math will be created at our next committee meetings. Then grade level teams will also create their own ELA and Math goals.
