Conference: National Alilance for Medicaid in Education

Do not use acronyms

Staff Assignment Special Services Data Manager

Location of Conference: Chicago, IL

Dates Attended: 9/23/26-9/25/26

General Overview: Do not use acronyms

The National Alliance for Medicaid in Education (NAME) is the nation's leading organization supporting School-Based Medicaid Services, and its annual conference is a premier professional development opportunity for school-based services coordinators, student services directors, and state Medicaid and education staff.

Each year, the conference convenes national leaders in special education, mental health, policy, and federal agencies that oversee the school-based services program. With more than 25 breakout sessions and engaging general sessions, attendees gain fresh ideas, proven strategies, and practical insights from experts and peers from across the country.

How will this impact student learning in a positive way?

We currently bill Medicaid for medically necessary services that are provided through a student's IEP. The funding that we receive from Medicaid helps us provide services to students.

How will I implement what I learned and how will I share this information with my colleagues?

I will convey the key operational updates, policy breakthroughs, and practical frameworks, federal updates and state updates for Medicaid billing to our Special Education department and the Medicaid Billing Secretary.

Other Comments:

Thank you for the opportunity to attend the NAME conference. We have been billing Medicaid for a significant period of time but have not attended the conference until this year.
