RECOMMENDATION:
An Intruder Detection Audit was conducted by the Texas School Safety Center on Thursday, September 17, 2026, on one or more Kaufman ISD campuses.

These audits assist the district in finding ways to increase security in a proactive manner. The audit noted a need for corrective action on one campus.

A corrective action plan was put into place immediately that included additional staff training.

Upon submission of the completed corrective action plan, which included the training documents, the individuals that received retraining, and all other applicable information, our corrective action plan for the specific campus was approved by TEA Safety & Security.
