RE: District Initiated FD(LOCAL) ADMISSIONS AND FFA (LOCAL) STUDENT
WELFARE WELLNESS AND HEALTH SERVICES Policy Revisions
DATE: October 28, 2026

In 2018, the district made the decision to add temporary housing to FD Local policy. The district's recommendation is based on TASB's review of this policy. We are recommending removing the language regarding temporary housing because it is not needed. This type of housing is on the installation, so automatically a student who is within our attendance boundary can enroll in our schools.

During the policy review, changes from the 89th Texas Legislative session were finalized and because Senate Bill 12 disallowed the use of a District of Innovation Plan to dissolve the Student Health Advisory Committee (SHAC) the policy was revised to remove the District Education Improvement Committee (DEIC) as the committee overseeing and change it back to the SHAC.

An administrative review was conducted, and conversations occurred with Amy Kadlecek, our TASB policy service consultant, as part of the policy development process. As a result, I recommend the approval of the FD and FFA local policy revisions.
