Activities/ Community Education Director, Crystal Lamont
WEM School Board Report
October 2026

Activities

- The 2026-2027 Fall Activities are wrapping up
    - Varsity Football is undefeated and received the #1 seed for Section 2AA Football. We have a bye first round and will host the semi-final playoff game at 2pm on Halloween.
    - Volleyball finished 3rd in the Gopher Conference and received a #6 seed in Section 2AA playoffs. We will host the first round on October 26th at 7pm.
    - Cross Country has been competing hard at local events. The Boys Cross Country team finished in 2nd place at the Gopher Conference meet. Wyatt Jans finished 2nd at conference and won the Grizzly Pie Run which was held at the Janesville golf course during homecoming week.
    - Cheerleaders have been doing a great job of providing support to our Football team and fans. They performed cheers at the pep fest and halftime of the homecoming football game.
    - The pep band performed Wipe Out at halftime of the homecoming football game. They did an excellent job and honored their seasons after the song.
- I met with the Andy Velishek and planned theater events for the year. The Fall Play will be performed November 19 & 20.
- Winter sports registration is live. Winter coaches are up for approval this month. There could be additions in November depending on our registration numbers.

Community Education

- Fall youth sports are wrapping up. 5th & 6th grade volleyball finished their traveling league. 3rd & 4th grade volleyball has two weeks left. They play games in Faribault on Saturdays. The youth flag football had 4 practices and ended their season with a Monday Night Under the Lights event. It was a great event and the Buccaneer varsity players helped make it a success. 5th & 6th tackle football lost a double overtime game at home to wrap up their season. Thank you to all our volunteer coaches that make it possible! We provided some great programming and experiences for the youth in our community.
- Fall Drivers Education will be starting the end of October. Mr. Boran is going to continue to run the classroom portion. Very few people have licensure to teach this class so we are fortunate he is willing to continue teaching this for our students.
- I plan to start working on an online catalog for all our community education programming. I hope to come up with new ways to promote our program and school. My goal is to have something put together by the new year.
- I am also scheduling some meetings with community members to try and increase our programming for community education.
