The account portfolio or assets in the account are valued at the starting and ending points of the period. Cash flows are included in the calculation based on when they occurred during the period.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal of an investment will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. All investments have investment risks such as fluctuation in investment principal including the complete loss of principal invested. The values represented in the report may not reflect the original cost of a client's initial investment. HUB Investment Partners standard reporting does not reflect reinvestment of dividends and other earnings in the performance numbers, unless the account holder specifically asks for inclusion of such earnings. Performance report calculations and figures should not be relied upon for tax purposes.

If you have any changes in your financial situation, risk tolerance, investment objectives or if you wish to impose or modify any reasonable restrictions on the management of your account(s), please contact HUB Investment Partners immediately. Also, please contact us if you would like a current copy of our Disclosure Document, which includes a description of the advisory services we offer.
