MEMORANDUM

TO: **ELPS Board of Education**

FROM: **Jacob Hampton; Director of Technology & Media Services**

SUBJECT: **Informational Item – High School Auditorium and Gym Sound System RFP**

DATE: **October 26, 2026**

Recommendation

It is recommended that the Board of Education award the following bids related to the High School Auditorium and Gym Sound System RFP

MOSS - $136,394.69

Background

Funds for this project are coming out of 2024 Safety, Security and Accessibility bond funds. The scope of this project will replace the audio equipment in both the Auditorium and the Main High School Gym. Our original projections for the project was $175,500. In the Auditorium we are upgrading the sound system and adding capacity for more mics. This system will allow us to use our older but still usable mics plus a new set to bring our capacity up from 14 to 20. In the Gym, we are replacing the amplifier, mics, and speakers.

Board action on this recommendation is scheduled for November 9, 2026
