

Lincolnshire-Prairie View School District 103

Memo

To: Board of Education
From: Eric Jonasson CPMM, CPS
CC: Dr. Katie Reynolds
Date: October 22, 2026
Re: Facilities Update

Daniel Wright Jr High

- Winterization of the athletic field sprinkler system at DW has been completed. This is a process we perform annually to ensure the system is protected over the winter months from freezing and damage.
- New doors were installed in the Performing Arts room and Corridor C to address two issues listed on our Health Life Safety Survey.
- A new stage curtain was installed on the stage at DW to ensure our compliance with the school safety code regarding fire rating safety. The new curtain is composed of inherently fire-retardant material and will require no future treatments to remain compliant.
- The newest batch of Legacy Bricks were installed in the front of Daniel Wright.
- The final application of fertilizer has been applied to the athletic field in preparation for the fall.

Half Day School

- Tree trimming was performed around the property to ensure any and all lower-hanging or dangerous branches were removed from play areas in an effort to ensure students' safety while on the equipment.

Laura Sprague

- Tree trimming was performed around the property to ensure any and all lower-hanging or dangerous branches were removed from play areas in an effort to ensure students' safety while on the equipment.
