FOR DISCUSSION

Lisle Community Unit School District 202
Board of Education Meeting
October 26, 2026

SUBJECT: Public Comment Follow-Up

BACKGROUND DATA:

Weekend Snack Pack Distribution

Administration expressed appreciation for the weekend Snack Pack proposal. As discussed in response to last year's request, the schools do not have the personnel needed to facilitate the program. We welcomed the opportunity to explore expanded fundraising and scholarship efforts to benefit local children and families and encouraged a partnership with the Lisle Education Foundation to support and enrich educational opportunities for District 202 students.

Marching Band

Administration explained to the individual that it is reviewing whether marching band should be classified as co-curricular or extracurricular, considering Board policy, IHSA guidance, course grading, and the PE substitution many band students rely on. Because the decision will affect student schedules for next year, administration aims to resolve the matter in the coming months and will present its findings and recommendation at the November Board meeting. The individual was invited to attend and was informed that the District will follow up with her after the Board's discussion.
