NEW POSITIONS

1 - Full Time Substitute - Rock Cut Elementary School

The administration is requesting 1 Full Time Substitute (1.0 FTE) as a result of the STP program growing significantly in both the number of students served and the intensity of student needs. Enrollment has grown from 17 students in 2020-21 to 40 students in 2025-26 and 56 students in 2026-27. This position would provide consistent certified coverage across the program, support certified staff and give teachers their required planning time as currently specials schedules make it difficult for STP teachers to have student-free planning periods.

2 - 5.75 Float Para Educator (LEVEL B) - Rock Cut Elementary School

The administration is requesting 2-5.75 hour Float Para Educators (LEVEL B) (1.44 FTE) as a result of the STP program growing significantly in both the number of students served and the intensity of student needs. Enrollment has grown from 17 students in 2020-21 to 40 students in 2025-26 and 56 students in 2026-27. They would provide additional support during transitions, general education inclusion, arrival/dismissal, behavioral escalation, staff absences, and other times when additional adult support is necessary.
