Superintendent Gina Butters

FROM: Heidi Alder
Legal Counsel

DATE: October 26, 2026

SUBJECT: Policy 4850 Learner Validated Programs-New -Second Read

Policy 4850, Learner Validated Programs, is a new policy establishing requirements and standards for learner validated programs operated by Weber School District and its schools. The policy promotes student academic accountability and progress by establishing expectations for course completion, student participation, academic progress, and instructional quality. It also outlines teacher of record responsibilities, oversight of educational service providers, course alignment and academic rigor reviews, documentation requirements, and procedures for determining student attendance and equivalent instructional hours. The Legal Department recommends Board approval of this policy on a second read.
