District Report

2026-2027 District and Campus Improvement Plans

District and Campus Improvement Plans

TEC § 11.252

The board of trustees of each independent school district shall ensure that a district improvement plan and improvement plans for each campus are developed, reviewed, and revised annually for the purpose of improving the performance of all students.

The board shall annually approve district and campus improvement plans.

District and Campus Improvement Plans

Each plan must identify detailed strategies, required resources, staff responsibilities, implementation timelines, and evaluation criteria that address:

- Instructional methods and evidence-based academic programs
- Dropout reduction
- Technology integration
- Staff development and career education
- Counseling, higher education, and financial aid information
- Violence prevention, positive behavior interventions (PBIS), and trauma-informed care
- Required state policies (such as discipline management programs and child maltreatment/sexual abuse policies)

District and Campus Improvement Plans

When reviewing each plan, board members will see that the District Improvement Plan and Campus Improvement Plans:

- Have the required Texas Education Code elements
- Have been revised to align to the three recently revised and approved Strategic Plan Goals
- Are aligned to the Effective Schools Framework

District and Campus Improvement Plans

At this time, the district and campus staff are completing reviews for any final revisions.

Draft plans are available for you to review.

If you have any questions or proposed revisions, we request that you please submit the information by November 6.

State or Federal School Improvement Plans

(TAP, TIP, and LIP)

State or Federally Triggered School Improvement Plans

This is an additional plan for a campus that will simultaneously run with the 2026-2027 campus improvement plan.

This additional plan must be developed and implemented due to specific accountability data triggers such when the campus receives a D or F rating and/or the campus is identified as a CSI, TSI, or ATSI.

Local Improvement Plans (LIP)

These plans are developed to address the campus-specific state and/or federal accountability trigger. These plans are kept and monitored locally. The Texas Education Agency can ask at any point for these plans to be submitted.

Local Improvement Plans (LIP)

We have nine schools that are required to implement a state and/or federal local improvement plan (LIP).

- Alamo
- Austin
- Banuelos
- Bowie
- San Jacinto
- Cedar Bayou
- EF Green
- Gentry
- Highlands Junior

Targeted Improvement Plan (TIP)

Information for the three schools, Harlem, Baytown Junior, and Horace Mann was presented during Public Comment Opportunity.

Turnaround Plan (TAP)--Year One

Information for the two schools, De Zavala and Highlands Elementary was presented during Public Comment Opportunity.

Turnaround Plan (TAP)--Year Two

We have two schools that are continuing to implement the campus Turnaround Plan for Year Two approved by the Board during the 2025-2026 school year:

Ashbel Carver

These plans continue to be monitored by the Texas Education Agency.

The LIP, TIP, and TAP 2026-2027 campus-developed plans are available for your review through the designated board links.

Board Approval for all Plans is set for November 17, 2026
