Interim Math Assessment Fall 26 report

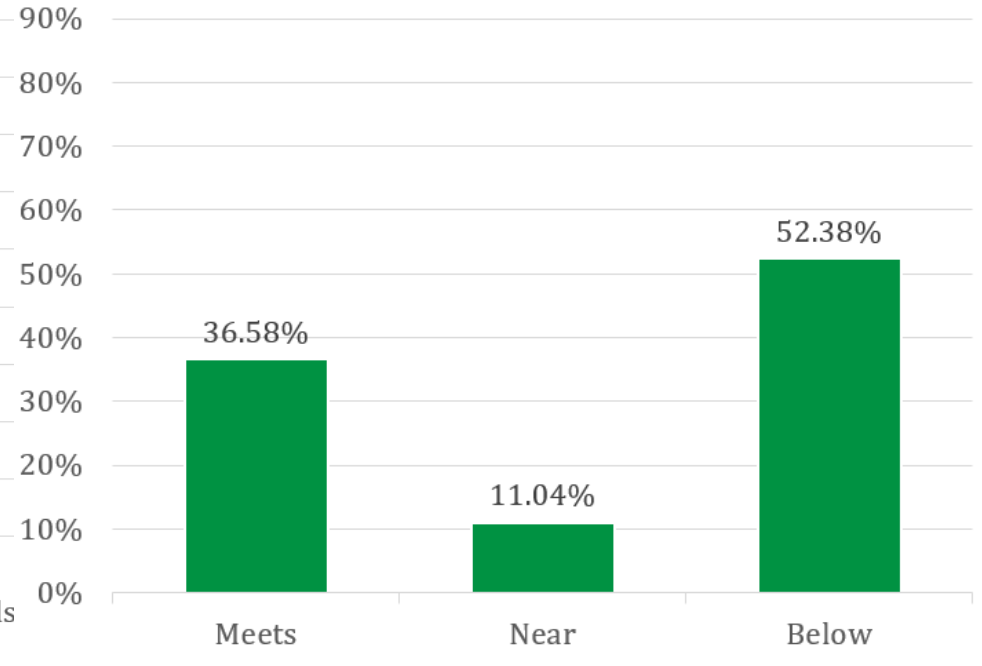

In 2025 the Oregon legislature passed the Education Accountability Act, Senate Bill 141. One of the requirements of the act is that districts must select an approved Interim Assessment Tool and administer it three times a year Kindergarten through 8th grade. The Pendleton School District has selected i-Ready from Curriculum Associates, and we have concluded our Fall assessment window.

The Pendleton School District in compliance with SB 141 is submitting this report to our Board of the current results from the Fall Window. In the first charts you can see the collective K-8 Math results followed by the grade level charts. Placement levels indicate the percentage of students that are at grade level, or 1, 2, or 3 years behind grade level.
