Re: Recommendation to Hire: Allison Madden, Paraprofessional

To support our students with IEPs, we are excited to welcome a new paraprofessional to our PV team: Allison Madden. Allison has been subbing in the paraprofessional role at PV and has done an outstanding job, bringing warmth, empathy, and positive energy to her work each day. Allison has already shown a natural ability to build strong, positive relationships with students. Her caring and compassionate approach makes her a great fit at Prairieview, as she provides encouragement, consistency, and personalized attention. Allison will be working with students in our DLP program to provide individualized support and further their success! We are grateful to have her as part of our team!
