BUSINESS:

Determination of Budget Priorities:

The Board of Education realizes it is difficult to meet an infinite array of educational needs and desires with finite resources. Therefore, the Superintendent is directed to formulate the annual budget with that statement in mind.

The following criteria should be taken into consideration:

1. At all times, all available resources shall be utilized to produce the most positive effect on the student's opportunity to gain a sound basic education in this school district.

2. The budget shall be in accord with statutory and regulatory mandates promulgated by the Federal Government, the State Legislature, the State Board of Education and the Somers Board of Education.

3. The budget shall be consistent with contracts between the Board and its employee groups and other contractual obligations.
